

Downe House

FIRST AID POLICY

PURPOSE

Downe House aims to provide a level of First Aid cover and expertise that ensures a swift and competent response to any accident or illness suffered by a pupil or member of staff (while they are in School or engaged on a School activity out of School) or by visitors to the School.

PROCEDURE

1.0 FACILITIES

Main School Site. The main School is situated on the Hermitage Road and there is a well-equipped and professionally staffed Medical Centre on the site. The playing fields are on the opposite side of the road approximately 5 minutes' walk from the Medical Centre.

Veyrines. The School also owns a satellite property in France where approximately twenty-five 12+ girls spend one term at a time. The French school has to abide by French legislation, but is run on similar lines to the main School in UK.

2.0 SPECIFIC HAZARDS

Specific hazards include higher risk activities carried out by departments such as PE, Extra Curricular, Science, Technology, Housekeeping, Catering and Maintenance as well as out-of-school trips, special events and road safety. Risk assessments are available for all areas of the School, and, in addition, specific risk assessments are carried out routinely for all potentially hazardous activities or special events, including trips off the School site and major events on the site. This includes consideration of whether a qualified first-aider's attendance is needed.

3.0 SPECIFIC NEEDS

There are a small number of pupils with specific disabilities or health needs such as asthma, severe allergies, diabetes, epilepsy etc. Lists of such pupils **as well as a photograph** are compiled by the Medical Centre at the beginning of each year and are accessible in confidence to staff. This information is also available on Merlin, the School's management information system. Such information is updated during the course of the year as necessary.

- Lists of girls with specific needs who are going off site are given to the member of staff in charge of the trip prior to departure together with any trip/site specific actions that might be necessary. Members of staff who wish similar information to be known about themselves are invited to advise the Medical Centre and/or any other individuals in person. The HR Officer also gathers similar essential information from newly recruited staff during their HR Induction at the start of their employment and encourages any such immediate health issues to be notified to their line manager where appropriate.

4.0 ACCIDENTS/INCIDENTS

Reports on all accidents/incidents are completed using the form contained in the Health and Safety Policy Appendix B, and, are submitted to the Director of Estates, Property and Services, Medical Centre, HR and Administration. Where necessary, incidents are investigated by the Director of Estates, Property and Services and First Aid provision is reviewed in the light of any resulting concerns about particular activities or departments. Medical Centre staff are responsible for any RIDDOR reporting that may be required, during term time. Out of term time this is the responsibility of the Director of Estates, Property and Services as well as notifying parents should any girl be involved in an accident where the Medical Centre staff are called to assist. In the case of minor cuts and grazes to girls, these are dealt with in-house by Pastoral Staff who then inform the parents.

5.0 STAFFING & TRAINING

The Medical Centre is staffed at all times by a qualified nurse (during term time), who is also a first-aider. The relevant teaching and House staff undertake basic training in First Aid during INSET which is provided for the School by a recognised qualified trainer and arranged by HR. The Medical Centre also provides training in the use of an EpiPen to all staff on a termly basis as necessary.

Selected members of staff in specific departments undertaking higher risk activities are encouraged to gain an appropriate First Aid qualification i.e. Sports First Aid, First Aid at Work, Defibrillator. A list of currently qualified first-aiders is listed on the HR Module of Merlin. Staff need to request any training via the HR Department who will then book and record the training. This list is reviewed and updated by the Director of Estates, Property and Services and HR on an annual basis. Training is refreshed every 3 years.

6.0 FIRST AID EQUIPMENT

The Medical Centre is fully equipped for First Aid. In addition, all Houses have a locked medical cupboard with appropriate First Aid materials, and First Aid bags are provided for off-site trips. First Aid boxes are available throughout the School, and their locations are illustrated on the map at Appendix A.

Defibrillator equipment (coloured yellow and blue so as to be immediately visible) is located at Reception in Wakefield House behind the Reception desk and at the Medical Centre. A list of defibrillator trained staff is attached at the end of this policy. This equipment has simple, straight-forward, audible instructions to follow, but should never be used instead of calling the Emergency Services on (9) 999; instead, it should be used once the Emergency Services have been called, whilst awaiting their arrival.

Any member of staff who uses First Aid supplies must ensure that the Medical Centre is informed so that they can be replenished. Housemistresses/Housemasters are responsible for the state of their House cupboards, and Medical Centre staff are responsible for reminding Heads of Departments on a termly basis to check their cupboards and advise as to whether or not re-stocking is necessary.

In the case of spillage of bodily fluids, Housekeeping supply Chemsorb powder that is used to sprinkle on such spillages which must then be cleared up using the gloves and scraper supplied. (Please refer to the Cleaning up of Bodily Fluids Policy on Merlin.)

7.0 PROCEDURE FOR REACTING TO ILLNESS OR INJURY

In an extreme emergency, an ambulance should be called immediately, followed by the Medical Centre and any other first-aiders available. Normally, however, the procedure will be as follows:

- If a member of staff, regardless of whether or not they are a qualified first-aider, needs assistance or advice in dealing with a person who is injured or ill, the first point of contact is the Medical Centre – the Emergency Contact No. is Extension 4657.
- There are a number of staff qualified in First Aid who will deal with an emergency whenever possible. However, because of variations in daily and weekly routine, they should not be relied on as the first point of contact in an emergency in School.
- If a member of staff is in charge of a group of pupils when such a situation arises, they should normally stay with the patient, and send one pupil to the nearest phone to call the Medical Centre, and another to the nearest member of staff (normally in the next classroom) for assistance.

Appendix:

- A. Location of First Aid Boxes
- B. List of current holders of “First Aid at Work” and “Defibrillator Training” qualification (whose qualification is refreshed every 3 years)

Revision History:

Revision	Date	Description of changes	Requested By
